welcome to Bornholm!

“Far enough away to seem like an exotic retreat, but close enough to be REALLY quick to get to, Bornholm is our hidden island gem in the Baltic Sea that won't stay hidden for long!”
- visitdenmark.com

All tenants share responsibility for daily cleaning and maintenance to ensure the functionality of the house

- 1 team, 1 dream!

our season

nordlandet is a primarily a seasonal venue, with our busiest season lasting from may until the end of september.

During this period many of our regular guests come back 'home' to the island to spend well deserved time off.

Being a hotel, we have a responsibility to ensure that we do everything we can to make a guests stay, an unforgettable experience.

It may be small things like remembering lemon slices for water or doing a little extra for a special occasion, but it has a huge effect!

our interior

The surrounding landscape and ocean inspire all of our rooms and apartments at nordlandet. They are all decorated with furniture and lamps in a minimalistic Nordic style.

We believe in rooms that can create space for individual experiences and serenity with the sound and view of the ocean as a natural part. Based on size, function and location, our rooms and apartments fall into different categories – BUT equal for all is that they are recently modernised and are with either ocean view or terrace.

our history

'Haus am Meer' dates back over a century, and was designed and built by the German architect Karl Schliemann from Charlottenburg.

The master craftsmanship is still preserved in its nearly original form in the hotel's elegant lounge area. The massive granite blocks mined in local quarries transition seamlessly into the minimalist modern design.

The picture on the left is from 1935, and shows one of the original expansions of the former 'Hotel Romantik', the name used since the early 1900's until it was renamed 'hotel nordlandet' in 2005.

breakfast & lunch

The day starts with breakfast which is a combination of a buffet and table service. Special attention should go towards to refilling coffee, juice, yoghurt, eggs, cold cuts etc.

After the buffet has been cleared, and juices etc. filled up for the next day, all tables need to be washed down.

Lunch service takes place between 12.00 – 15.00 up in the main restaurant, and features bistro style dishes in the same spirit as our dinner menu.

dinner in the restaurant

‘Dinner in the restaurant’ is quite literally the hotel’s bread and butter – meaning that it is one of our main products and attractions

The restaurant serves upscale bistro-style food, deeply rooted in the nordic kitchen.

The kitchen and wait staff work harmounously together to create memorable moments for both in house guests and locals in the area.

Attention to detail, product knowledge and gentle hospitality go a long way in creating a perfect evening.

underbar

What is Underbar?

- Underbar is a cosy nook located under the hotel. It is a meeting spot open from late afternoon until late at night.

Nordlandets original basement features signature cocktails, local beers on tap, warm beverages and small food options to either nibble before dinner, or fulfill a craving before bedtime.

The bar seats 30 inside, and about double that amount outside. Guests also take drinks, glasses and plates around the property and sometimes forget them – so try and keep an eye out!
